

Performance in A Whole New Dimension

Quiet, Fast, Precise

The all-new imagePROGRAF TM-5200 and TM-5205 redefine printer excellence. Boost your workplace productivity with software applications that seamlessly manage and simplifies your print jobs. Featuring an all-new pigment LUCIA TD ink with superb print quality for line and text reproduction and vibrant poster prints. Boasting an impressive 44dB acoustic sound level, the TM-5200 and TM-5205 truly lives up to the ideal that your prints should be seen, not heard.

imagePROGRAF™ TM-5200 and TM-5205

PRECISION AND PERFORMANCE IN HARMONY

Combining core printing technologies with a wide range of features and software solutions, these versatile 24-inch Large Format inkjet printers allow you to enjoy exceptional high-speed and accurate printing. Aside from an all - new LUCIA TD 5 colour pigment ink for vibrant prints and exceptional fine details, the TM Series boasts high level of data security, with optional hard disk and scanner to complete your quiet printing experience.

LUCIA TD Ink
The TM Series employs the all-new five-colour pigment LUCIA TD ink which renders unparalleled detailed precision needed for CAD/GIS files even on uncoated plain paper. Realise true potential to print vibrant, weather resistant colour posters with LUCIA TD ink.

FINE Print Head
With a new 1.07- inch, 6-channel integrated FINE print head with 15,360 nozzles, the TM Series gives excellent print quality through improved uniformity of ink density and colours.

L-COA PRO Processor
Powered by the new L-COA PRO high-speed image processing chips, the TM Series delivers supreme print quality at high speeds even for big jobs.

TM-5200 MFP L24ei

Entry level MFP with L24ei scanner enables easy large format scanning and copying without a computer. The L24ei offers a fast First Copy Out Time (FCOT) thanks to automatic buffering of scanned data. Scanned data (TIFF) can be saved to a USB Flash drive while the dedicated utility ScanApp Lei will support TIFF, JPEG, PDF, Multipage PDF, PDF/A. Multiple entry level MFPS can also be connected to the same network to give maximum flexibility in your work environment. The Lei scanner encompasses the patented SingleSensor technology which is designed for optimum image quality capture across full scan width to give higher optical quality and alignment stability.

Scanner is manufactured by U.K.-based Global Scanning UK Ltd.

Direct Printing
Enjoy direct printing of JPEG and PDF files through USB Flash drive anytime on the new TM Series. (Hard disk models only)

Security
The TM Series printers offers robust information security in a network environment to help prevent intrusion and leaks of confidential data.

Versatile Connectivity Including Wi-Fi Support
Equipped with connectivity inclusive of Wi-Fi Support, wireless networking will be trouble-free when connecting multiple computers to the TM Series Printers.

Software Applications for Workflow Management
Batch printing, job presets, shortcut prints can be easily and efficiently sent with Direct Print & Share. Calculate the cost of your print job with Accounting Manager to assist in your daily tasks.

Software Applications for Posters
Create professional looking posters with PosterArtist software. Packed with a variety of stock photos, templates and clip art, one can create a poster in no time, easily. Additionally, with Free Layout Plus software, users can also enjoy nesting, tiling and duplex printing features.

AutoCAD Optimized Printer Driver
AutoCAD optimized printer driver is specifically developed for Autodesk AutoCAD to enable faithful printing of drawing data created with AutoCAD.

Silent Printing
During operation, the imagePROGRAF™ TM Series boasts a quiet acoustic sound level of only 44dB; thus enabling it to even fit in small offices without a fuss.

Ease of Use
The new and intuitive User Interface Operation with Colour Touch Panel gives immediate access to most commonly used functions. On-screen help for changing inks, QR codes for video assistance on loading media or clearing paper jams allows anyone to operate the printers with ease.

Environment
TM Series printers has slashed energy consumption with a low-power standby mode which is nearly 28% lower than the current model. Additionally, yearly CO₂ emissions are also about 24% lower, which makes a significant difference in conserving electricity.
